

Home Ties

The home is the one natural tie—the tie that binds all mankind to a common cause. It is the greatest and most important institution in American life. Without it, the noblest inspiration, the most marvelous human achievement, the grandest dream of the future, would fail in their purpose. Every great invention, every step in the uplifting of mankind is ultimately of benefit to the home. Therefore, when you lay a rug, hang a picture, place a rocker, or plan new comforts for the home, you are rendering a lasting service to every member of your household, and you are making more sacred, the most sacred spot on earth. And we can help you. We have an almost endless variety of furniture and furnishings for the home that are certain to meet your needs, as well as your inclination regarding price. We have helpful suggestions to offer and an inviting stock to show. We'd be mighty glad to have you "nose around" the store and see what you can see—it will prove to your benefit and satisfaction. As to payments—let us do the worrying about that. We're waiting for you now.

MONTPELIER SEMINARY.

Banquet to be Held Next Saturday Evening.

A special feature of the Vermont annual conference meeting in this city will be a Montpelier seminary banquet in armory hall, Saturday evening, April 1, beginning promptly at 5 o'clock. Rev. A. W. Hewitt will be the toastmaster; speeches will be made by Senator William P. Dillingham, Bishop John W. Hamilton of Boston, Chancellor Franklin Hamilton of the American university, and other persons.

It is expected that between two and three hundred people will be present. The tickets will be fifty cents.

The term just closed has been a busy one at Montpelier seminary and of unusual interest and profit to all. The basketball team worked hard and played some exceptionally good games. In most cases the scores were close. For the most part the team was composed of new men who had not played together and the team strength had to be developed after the season began. Percy Kelley of Newport has been chosen captain for next year.

A musical event of more than ordinary interest was the faculty concert given in the chapel on the evening of January 10, participated in by Prof. Lewis J. Hathaway, Miss Eleanor Sands, Miss Florence S. Hinckley, and Mrs. Fannie P. Bruce. All the numbers were enthusiastically received and a substantial sum was realized for the benefit of the athletic association.

On Friday evening, March 10, the annual

junior prize speaking contest was before a good audience. The prizes offered to young men were won by Bernard Davis of Corinth and Robert Plastridge of Northfield, and the young ladies' prizes were won by Nelson Hatch of Montpelier and Bernice Davis of Corinth.

Among the chapel visitors have been numbered several who have brought messages of cheer and real inspiration. One who will be the longest remembered, however, is Dr. Horace B. Haskell, director of the Newman institute at Jerusalem, who gave one of the most interesting talks of the year.

Another visitor of national reputation was Daniel A. Poling of the Flying Squadron, whose personality and words made a distinct impression on members of the student body and faculty. Rev. Ralph F. Love of St. Johnsbury gave an address in his happiest mood which was entertaining, instructive and inspiring. The school was also favored by an excellent address by Miss Margaret Flannery, student secretary of the Y. W. C. A.

Various miscellaneous activities such as hikes to the shack for lunch, skating parties on the campus rink, joint sessions of the literary societies, and Saturday evening parties and many other informal social events have been greatly enjoyed. All these things have added much to the friendly attitude of the school and have done much to make the "M. S. spirit" the vital thing it is.

Dr. Hatch continues to labor incessantly for the welfare of the seminary. He spent three weeks in the middle west, which resulted profitably for the school. On March 24 he attended the banquet of the Boston Alumni association at Westminster hotel, Boston, and on the following day attended the meeting of the principals of the New England schools which are under the auspices of the Methodist Episcopal church.

Canton Vinton, Attention.

Officers and chevaliers are urgently requested to assemble at the L. O. O. F. hall Tuesday, March 28, at 1:30 p. m. for the purpose of attending the funeral services of our late past captain, W. E. Beck. Per order, captain.

Card of Thanks.

We wish to thank the neighbors and other friends for their numerous acts of kindness and expressions of sympathy during our recent bereavement; also for the beautiful floral tributes.

Mr. and Mrs. W. J. Cave,

Mrs. and Mrs. A. J. Cave,

Workmen, Take Notice.

The executive committee of the Central Labor union and all the local unions will meet Monday evening at 8 o'clock in the clerk's hall, Worthen block.

They are to reside in Montpelier, where Mr. Balch is employed as a tool sharpener.

After suspension of several days, due to the desire of the company's local officers to restore the smoke stack raised a fortnight ago, work has been resumed at the Harrison Granite Co.'s plant near Center street. The old metal smoke stack, which was rapidly outgrowing its usefulness, has been discarded and a new chimney has been raised.

After a brief but very eventful season, the Shamrock A. C., composed of former schoolboy players in Barre, is to close its basketball season in Newport, tomorrow evening by playing the strong national guard team of Orleans county. Capt. O'Grady, Carroll, Manager Stuart, Ogston, Smith and Tomasi will make the trip to Newport Tuesday afternoon.

18 POUNDS OF BLOOD

Is the average quantity in a healthy adult, but it is the quality of the blood that determines our strength to resist sickness. With weak blood we find cold hands and chilly feet; in children an aversion to study, and in adults rheumatic tendencies.

In changing seasons get abundant fresh air and take a spoonful of Scott's Emulsion after meals, because Scott's Emulsion is a rich blood-food that will increase both quantity and quality of the blood while it warms the body and helps carry off the impurities.

When multitudes of people are today taking Scott's Emulsion to avert winter sickness, and are giving it to their children, it is careless to neglect its benefits. Look out for substitutes. Scott & Bowne, Bloomfield, N. J. 15-26
